Customer Support

Why Homeowners Choose Us

Honest Site Assessments

No copy-paste quotes. Every system starts with a real look at your roof, your loads, and your budget.

Transparent Naira Pricing

The price we quote is the price you pay — no last-minute forex surprises after you've committed.

Support That Outlasts Installation

Real warranties, backed by a local team that still picks up the phone, long after your panels go up.

WHAT WE DO

Our Core Services

Consultation — Free on-site or virtual assessment of your power needs and site conditions.

System Design & Assembly — Custom-engineered systems sized to your exact load, not a generic package.

Component Sales — Certified solar panels, inverters, batteries and accessories — sold individually too.

Installation Services — Certified engineers handle every install from start to finish.

Repairs & Maintenance — Keep your system performing at its best, for years to come.

Solar System Packages

Package	Inverter	Best For
Starter Home	1.5kVA – 3kVA	Apartments, small homes, essential backup
Family Home	5kVA – 10kVA	Mid-to-large homes, full household backup
Business & Commercial	10kVA+	Offices, shops, light industrial & critical loads
