

PRODUCT & SYSTEM DATASHEET

Components & Systems Overview

A quick technical reference for the components and system tiers Jimoh Solar designs, sells, and installs across Nigeria.

Solar Panels

Model	Power Output	Cell Type	Typical Warranty
JS-450M	450W	Monocrystalline PERC	25 years (performance)
JS-550M	550W	Monocrystalline PERC	25 years (performance)

Hybrid Inverters

Capacity	Best For	Output Type	Typical Warranty
3.5kVA	Starter / small home systems	Pure sine wave, hybrid	2 years
5kVA	Family homes (most popular)	Pure sine wave, hybrid	2 years
10kVA+	Business & commercial loads	Pure sine wave, hybrid	2 years

Batteries

Type	Capacity / Voltage	Notes
Lithium (LiFePO4)	100Ah / 12V	Compact, long cycle life, low maintenance
Lithium (LiFePO4)	200Ah / 24V	Expandable banking for larger systems
Tubular (Lead-Acid)	200Ah / 12V	Budget-friendly backup option

Certifications & Standards

- IEC 61215 & IEC 61730 panel certification
- TÜV Rheinland certified components
- Components sourced to meet international quality benchmarks

All specifications above are representative placeholders for demonstration purposes. Please confirm exact figures (efficiency, dimensions, cycle life, certifications) against verified manufacturer documentation for the specific components used on a given project, before publishing or relying on this sheet commercially.
